

It seems that there can no longer be any doubt that a ring in St. Louis having, very possibly, connections in other parts of the State, has attempted to engage in the business of prison-broking. No one, who will read the facts spread out below, can have any reasonable doubt that money was to be collected, the consideration being the pardon of a certain number of prisoners, and that the money if it remains either for the Grand Jury or an investigating committee of the Legislature to determine. That certain people have attempted to collect money from the friends of prisoners is certain. So far the Post-DISPATCH can only present cases where this attempt was made and failed. If there are instances where money actually was paid, they have not come to light, nor is it probable that they will. It is a very interesting and compelling testimony as to what is being done.

It had come to be generally understood, on the streets, that before Governor Cotton's administration the streets were full of money. McSherry, Brown and others were pardoned. It had come to be generally believed that there was money in the Russell Brown case. It was generally believed that Russell Brown was independent for the money. It was positively asserted that \$10,000 would pardon a murderer, and that the streets were full of money while Mr. Joseph Brown himself was willing to raise that amount of money. It is said that his friends were willing to do so. Those who pretend that the money would be used for other purposes, but that the hit came not from the difficulty in getting the \$10,000, but in getting a man from whom the money could be taken, would be very much mistaken. If it is true, the \$3,000 proposition made to Mr. Thoroughgood is difficult to understand, except as a very foolish and unauthorized attempt to get into the track of the money.

ANTAGONIZING EADS.

The Missouri Members Opposed to the River and Harbor Bill.

An Address Report on the Civil Service Reform Bill—Navy Yard Operations Resumed—A Delicate Social Question—The Oklahoma Leaders to be Prosecuted.

WASHINGTON, D. C., January 31.—A good deal of interest is felt today in the river and harbor bill, which is to be very vigorously fought, especially as it relates to the Eads features. The bill practically creates two special offices for the benefit of Captain Eads, one as superintendent of Mississippi River improvements, and another as chief engineer of the work on the Galveston harbor, at a salary of \$3,000 a year, and \$3,000 on every additional foot of water added to the channel over the bar. Said a Missouri member: "I have always been a friend of Eads, but these provisions smack of favoritism. The bill puts him above all old and established engineers. It is well known that the plan so long advocated by Captain Eads for the improvement of the river from the mouth of the Ohio to New Orleans was originated by Major Ernest of the United States army. It seems to me that this is wrong. Then Eads is named in the bill as to place Eads over the army work at the Galveston harbor, and a munificent price for deepening the channel. There is altogether too much Eads in the bill."

DIRE DISASTER.

A Fatal Explosion of Natural Gas at Pittsburgh, Pa.

Numerous Buildings Blown Up and Many Lives Lost—Terrible Scenes at the Wreck—Men, Women and Children Mangled—A Street-Car, Filled with Passengers, Hurled From the Track—Great Excitement in Pittsburgh.

Pittsburgh, Pa., January 31.—Natural gas, responsible for another terrible explosion, which, this morning, involved not only the wreck of a house, but a serious loss of life and maining which will follow the victims to their graves.

Shortly before 10 o'clock there was an alarm on the big bell in the Municipal Hall tower, but it was of such irregular character that even Chief Evans, who was in the rounds of the hall at the time, was not aware of its meaning. It was a moment when the gas was in the air, and the explosion occurred at the corner of the hall.

Just a few moments after the occurrence a Citizens' Line car passed in front of the buildings filled with passengers. A second explosion occurred and the car was hurled into the air, and the passengers were scattered in all directions. The explosion occurred at the corner of the hall.

What the Interested Pastors Have to Say About the St. George's

Services.

A Letter of Inquiry.—Dr. Boyd's Opinion

Dr. Fulton's Paper—No Loss of Self-Respect.

The course of lectures to be given in St. George's Episcopal Church during lent is unquestionably something new in church policy in this portion of the country is abundantly proved by the reference to it one hears on every side among churchmen who keep an eye on the proceedings and give their opinion as to the drift of current religious thought. The following communication shows the misconception which has been formed; and it is to be regretted that so inconsiderately individual judgment is sometimes formed that it is published, though the facts are stated in such a way as to lead to speak in St. George's, who are Drs. Madden, Nicolls, Boyd, Merrill, Rhodes and Towne.

St. Louis, January 30, 1855.

To the Editor of the Post Dispatch:

I am a member of an evangelical church, and would like to know how you regard the evangelists who are going to preach in St. George's. I have nothing but the highest respect for the Episcopal clergy; and I have no objection to the church of Protestants; but at the same time I am similar that the preachers of my denomination admitting all that, especially the mission, and others equally evangelized should consent to speak in a church in which they would be met to speak in churches where they were consecrated. That is, why will they take a pulpit that may sometime be too good for them? Will they go to St. Louis, and tell the church to God make it too holy for a Methodist or Baptist?

REV. DR. C. P. MADDEN,

pastor of Union M. E. Church, when his attendance was called to the lecture, said he "I cannot understand why any such criticism should be excited."

"Then you have no objection," said he, "to their preaching in St. George's, as it were?"

"Well, I should think not," was the answer, the lecturer being invited to come to his pulpit, and preach, "such an imputation is unjust. I have preached in any Protestant church in America, and I have never been asked to leave." So St. Louis, I have seen in Episcopal churches several times.

"When they were asked to leave," said Dr. Merrill, Bishop Bowman with others of

in consecrated Episcopal churches. As it is I for one of those invited will go to St. George's with the heartiest appreciation of Dr. Fulton and the Episcopalians who have the same Christian

Machine Shortland.
THE STENOGRAPH, OR MACHINE SYSTEM OF SHORTLAND, can positively be learned in less than half the time required by the pencil system under the best instruction and management, and it is superior to the old system for office work.

Machine shortland is used and preferred by a large number of first-class business firms, such as:

Hunter Bros.
E. O. Starnard & Co.
Eau Claire Lumber Co.
Mound City Paint Co.
Pond Engineering Co.
A. S. Barnes & Co.
J. F. Inks & Co.
Plant Milling Co.
St. L. & St. P. Packet Co.
L. R. & F. S. Ry. Co.
Union Milling Co.

and many others.
The Bryant & Stratton Business and Shortland College, corner Broadway and Market streets, is the St. Louis agent for teaching the Machine System of Shortland, and graduates of this school will be given preference by the J. S. Stenographer Co., which called upon to furnish operators on the Stenograph and Caligraph.

Pencil Shortland.
The Pencil System of Shortland is also taught by an experienced and practical teacher, and by a new method of presenting the subject, original with this school and not taught elsewhere, the time and labor of learning Shortland is lessened to such an extent that an average pupil will save more than the price of a scholarship by following our method, which has been thoroughly tested.

Business Education.
A very large and constantly increasing patronage affords an ample income to conduct an Educational Institution upon a liberal and extensive scale, and we are therefore able to retain the best teachers to be found, and do better by our students than any other similar school in St. Louis.

For circulars, etc., apply to Dr. W. M. Carpenter, President of Bryant & Stratton College, corner Broadway and Market street.

Many other similar changes are going on. What will be the ultimate result? The questions will press for answers and they will be answered in the morning. The church is in a position of peculiar position of the church in respect to the future.

Attempts are being made to suppress Rev. Hester's sermon of New York City. The bitterness aroused by the recent taking of the sanctuary by a prominent member of the church has not died out. Now, this innovation coming from the West, he added, as it is by one of the great lights of the church, will certainly cause some of the fiercest of the former quiet precincts of ecclesiastical jurisdiction.

THE ELKS' ENTERTAINMENT.
A Select Gathering Highly Entertained at.

A very large and fashionable attendance greeted the second ladies' sociable of the Elks' Lodge last evening. The programme proved highly entertaining, commencing with Mrs. Jos. Bog's happy rendition of "Kathleen Mavourneen," which was loudly cheered.

The Epistolary discourse followed, with the theme, "The Value of the Word Spoken by the Red Lips of Christ's Disciples." The discourse was delivered in a masterly manner. Mrs. Rung-Jackson sang "Ave Maria" in Italian, evincing rare vocal powers and more than making up for the lack of the fine art.

Rev. W. B. Nixson of Litchfield, Ill., will preach in the Glasgow Avenue Presbyterian church, exchanging with Rev. J. W. Allen of the Presbyterian Board of Publication.

The ladies' auxiliary in connection with the Union Depot Railway Y. M. C. A. will serve an oyster supper at room No. 1 Union Depot on next Thursday evening.

A deep religious interest is being manifested at the Sunday afternoon gospel meetings held at the South Side Baptist church, and the weekly cottage prayer meetings are carried on besides their regular meetings.

The Southwestern Methodist, Rev. J. E. Godbey, editor, which is noted for two things—for having a sympathetic and for having a practical editor. McNally's St. Louis Christian Advocate, the Southern Methodist, has enlarged its form and appears much improved this week.

At the Central Christian church, corner Market street and Compton avenue, the pastor, Rev. Calvin Blackwell, will preach to-morrow morning, at 10 o'clock, on the subject, "The Power of the Word Spoken by the Red Lips of Christ's Disciples." At 4 o'clock in the afternoon the sermon will be on the subject, "Child Power in the World."

Many other similar changes are going on. What will be the ultimate result? The questions will press for answers and they will be answered in the morning. The church is in a position of peculiar position of the church in respect to the future.

Attempts are being made to suppress Rev. Hester's sermon of New York City. The bitterness aroused by the recent taking of the sanctuary by a prominent member of the church has not died out. Now, this innovation coming from the West, he added, as it is by one of the great lights of the church, will certainly cause some of the fiercest of the former quiet precincts of ecclesiastical jurisdiction.

Supreme Chancellor Gallenette's Circular to the Legion—An Address That Will Swell the Association's Funds—Irving Council's Contribution—The Movement Meeting With Great Success.

There was a full attendance of the sub-committee of the Sanitary Aid Association this morning at the meeting of the Legion.

The progress of the movement was discussed and much satisfaction expressed. Their work closes with good accessions to the treasury, many more substantial evidences that the citizens are aroused to the great importance of the work having been received.

Communications have been a feature of the week. The action taken by the benevolent societies has given the association a new impetus. Every individual should deem it his duty to contribute, whether a personal solicitation be made or not.

There should be no failure to put this made or not. The following is the text of the address by Mr. Frank Gallenette, supreme chancellor of the Legion of Honor, to its members. It is an appeal that every person should carefully read, and which is especially addressed to the Sanitary Aid Association and points out what it may do to avert a cholera epidemic if properly sustained. It reads as follows:

"To all Members of the Legion of Honor:
The movement now in progress among the business men of St. Louis, to raise funds for the improvement of the sanitary conditions of the city, is one that should be warmly and sympathetically supported by every member of the Legion of Honor.
